Re Landfill Pond Transfer

Dear Mr Anderson

This letter serves as written confirmation of our approval to transfer approximately two million gallons of water from the Landfill Pond to Pond A1 and Pond A3. We note that proposed transfer of 300,000 gallons to Pond A1 is roughly 20% of the pond volume and we ask that you inform us of the final pond capacities following transfer. The data submitted with your transfer request shows no apparent inconsistencies with the stream standards.

On a related item, we would like to be able to collect samples of the water from Pond B5 and Pond A3 during the next instance when you are transferring these ponds into Pond A4. Please contact Stan May at 692-3566 to arrange such a sampling.

Thank you for your continued cooperation. You may contact Sandy Marek at 692-3617, if you have any questions.

Sincerely,

J. David Holm, Director
